## PDF Markup Solution For ProjectWise

**SoftVue Redlining Solution** is an innovation in the Engineering Drawings Markup process which enables your company to take the full advantage of all Drawings stored on Bentley **ProjectWise** EDMS as well as drawings stored on **SharePoint** Libraries and route it, as per the Project needs, to Engineers who comment, Consolidate the document.

It also provides you with the ability to **Track** each document Markup history within the Project.

- Administrators (or Document Owners) Designs the Markup Route Template .
- Multiple Documents Association with Templates at once based on the Project Requirements.
- Whether the Document has a template Associated to it or not; users can Open it in SoftVue Application and start creating Layers with Markup Objects.
- Based on the Role of the User Some Validations applied to enforce business rules.
- Document Owners can publish a PDF with Selected Layers and Objects and Stamp it with the Document Attributes from the DMS System (ProjectWise) or SharePoint Server.
- Tracking and System Reports can be generated throughout the process lifecycle.

### BENEFITS OF USING SOFTVUE

- Integration between ProjectWise and SoftVue redlining solution for PDF Documents enables you to process all Documents stored on ProjectWise without having to duplicate the document Repository in DMS System as Well As Markup System.
- Provides features at each stage of a document's Markup lifecycle which makes documents reviewing and auditing are so much easier with historical records in SoftVue.

### KEY FEATURES

- Basic Markup Operations (Layers Per User & Objects [Clouds, Shapes, Symbols, Text Notes, Text Spell Checker for Layers and Objects ...etc.]) with ability of Editing after Object Placement.
- ProjectWise EDMS & SharePoint Server Integration.
- Dynamic PDF Stamp With Document Attributes.
- Markup Distribution Module with Route Templates and Role and Rights Delegation.
- Markup Tracking and Historical Reports Module.
- PDF File Attachments, System Alerts, Batch Markup Operation ("No Comment", "Text Comment", "Associate with Template", "Multi-Stamp" ...etc.).
- PDF Publisher for Markup Layers and Objects.
